

POPs Capacity Building Project for SE Asia

Hot-Spot Survey Form

Date: _____

Location

1. Site Name: _____ 2. Site #: _____
3. Address: _____ District: _____ Province/State: _____
5. Country: Cambodia Laos Malaysia Thailand
4. GPS Coordinates (Lat/Long or UTM): _____

Site Information

7. Contaminating industry or activity: _____ 8. Year(s) of operation: _____ to _____
9. Brief history: _____
10. Is the contaminating activity still occurring today?: Yes No
11. Number of workers at the site: _____
12. What is the current site land use? _____
13. Size of site _____ (ha)
14. What is the estimated total amount (quantity) of contaminated material at the site? _____
15. Surrounding area (within 1km): agriculture industry aquaculture forestry other

Contaminants

16. What types of POPs are known to be on the site? (circle contaminants known to be present; if chemical analyses have been performed, indicate the highest known concentration of the contaminant(s) analyzed)

Aldrin _____	Endrin _____	Dioxins/Furans _____
Chlordane _____	Heptachlor _____	Lindane _____
DDT _____	Mirex _____	Chlordecone _____
Dieldrin _____	Toxaphene _____	Endosulfan _____
Hexachlorobenzene (HCBs) _____	Polychlorinated Biphenyls (PCBs) _____	Other _____

18. What environmental media are contaminated with POPs?
soil surface water groundwater sediments fish ponds food items unknown

20. Have any environmental studies been done on the site to date? Yes No Please provide references for studies completed: _____
